Science Church Tells Way to Man's Salvation

Those who turn to God and follow in right paths shall be saved from the effects of evil, according to the Sunday Lesson-Sermon on "Everlasting Punishment" to be read in all Christian Science churches.

The Golden Text is from Lamentations: "Wherefore doth a living man complain, a man for the punishment of his sins? Let us search and try our ways, and turn again to the Lord (3:29,40). In a Bible citation from Proverbs the writer declares: "Evil men understand not judgment; but they that seek the Lord understand all things... Whoso keepeth the law is a wise son... Whoso causeth the righteous to go astray in an evil way, he shall fall himself into his own pit; but the upright shall have good things in possession... He that covereth his sins shall not prosper; but whose confesseth and forsaketh them shall have mercy" (28:5, 7, 10, 13).

Mary Baker Eddy says in "Science and Health with Key to the Scriptures": "The moral law, which has the right to acquit or condemn, always demands restitution before mortals can 'go up higher.' Broken law brings penalty in order to compel this progress" (p. 11).

Barnum Sermon Discusses Mind

Services of the Church of Religious Science are held each Sunday at 11 a.m. in the Masonic Temple, Eubank and Catalina, Redondo Beach. The Children's Church, directed by Dr. Evelyn Earle, and the Metateens (the teen-age church) directed by Adrian Bibbe, M.R.S., are also held at 11 a.m.

Parents of infants and pre-school children are invited to leave their little ones in the nursery while they attend the services.

Persons wishing to avail themselves of the services of the Healing Department are invited to write their requests to the Healing Department, at the church headquarters. There is no charge for this service.

Regarding his sermon, Rev. Barnum states: "What we know about subjective mind proves that it is unconscious of time, knows neither time nor process. It knows only completion, the answer. That is why it is written, 'Before they call, I will answer.'"

Cosmic creation is from idea to object. It does not know anything about process; process is involved in it but not consciously. Correct practice, should know that ultimate right action is now, today. If we say, 'Tomorrow it is going to be,' then according to the very law we are using, we hold the answer in a state of futurity which can never become present."
